POCH Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH). Creation date / last update: *2002-10-15 / 2005-10-16*

1. Identification of the substance/preparation and of the company/undertaking

CALCIUM NITRATE SOLUTION APPROX.45%

Catalogue Numbers: *-874582797;*

Use of the substance / preparation: reagent for analysis or synthesis

POCH SA
44-101 Gliwice, Sowinskiego Str. 11
tel.: +48 32 23-92-381; fax: +48 32 23-92-370; e-mail: export@poch.com.pl
Emergency telephone no: +48 606-659-006

2. Hazard identification

I

3. Composition/information on ingredients

Synonyms: *water solution*

CAS-No.: *10124-37-5*

Molecular mass: *164.09*

Molecular formula: $Ca(NO_3)_2$

WE Number: *233-332-1*

4. First aid measures

After eye contact: *rinse out with plenty of water with the eyelid held wide open. Call in ophtalmologist.*

After skin contact: *wash off with plenty of water. Take off contaminated clothing.*

After swallowing: *make victim drink plenty of water. Induce vomiting. Summon doctor.*

After inhalation: *fresh air*

5. Fire-fighting measures

Suitable extinguishing media: *in adaption to materials stored in the immediate neighbourhood*

Special risk: *no further requirements*

Special protective equipment for fire fighting: *May emit dengerous gases in event of fire: nitrogen oxides*

Other information: *non-combustible*

Prevent fire-fighting water from entering surface water or groundwater. Cool container with spray water from a safe distance. Contain escaping vapours with water.

6. Accidental release measures

Avoid substance contact. Do not inhale vapours/dusts. Take up with liquid- absorbent material. Forward for disposal. Clean up affected area.

7. Handling and storage

Handling: *Use with adequate ventilation. Use of the basic principles of Industrial Hygiene. Use according to good industry practice. Work under hood. Do not inhale substance. Do not empty into sewerage system. Use protective equipment according to p.8. Avoid skin contact.*

Storage: *tightly closed. Room temperature (At +15 to +25 deg C).*

8. Exposure controls/personal protection

Specific control parameter: *no determined.*

Provide exhaust ventilation. Ensure the eye wash station and safety showers. Protective equipment should be selected for the working place, depending on concentration and quantity of the hazardous product handled. The resistance of the protective clothing to chemicals should be ascertained with respective supplier.

Personal protective equipment:

respiratory protection: *required when aerosols are generated - respiratory protection.*

eye protection: *required - safety goggles.*

hand protection: *required - protective clothing.*

body protection: *required - protective clothing.*

industrial hygiene: *immediately change contaminated clothing. Apply skin - protective barrier cream. Wash hands and face after working with substance.*

9. Physical and chemical properties

Form: *liquid*

Colour: *colourless to light yellowish*

Odour: *odourless*

pH value: *5 - 6 (20°C)*

Melting point: *not available*

Boiling point: *not available*

Autoignition temperature: *not applicable*

Flash point: *not applicable*

Explosion limit: *not applicable*

lower:

upper:

dynamic viscosity:

kinematical viscosity:

Vapour pressure: *not available*

Density: *~ 1,45 g/cm³*

Bulk density: *not applicable*

Solublity:

in water: *soluble*

in organic solvents: *not available*

log P(w/o):

10. Stability and reactivity

Conditions to be avioded: *no further requirements*

Substances to be avoided: *no further informations*

Hazardous decomposition products: *no information available*

Other information: *no further informations*

11. Toxicological information

Toxicological information: *LD50 (oral rat): 3900 mg/kg (for Ca(NO3)2 . 4H2O).*

Other information: *after swallowing: nausea, vomiting. After skin contact: slight irritations. After eye contact: irritations. After inhalation of aerosol: irritations in the respiratory tract.*

12. Ecological information

For nitrates in general: May contribute to the eutrophication of water supplies. Hazard for drinking water supplies. Do not allow to enter waters, waste water or soil!

POCH

13. Disposal considerations

POCH product packaging must be disposed of in compliance with the country-specific regulations or must be passed to a packaging return system. Handle contaminated packing in the same way as the substrate itself. Always contact a permitted waste disposal to assure compliance with all current local, state and federal regulations.

14. Transport information

ADR Class and package group: *5.1,III*

UN Number: *3218*

Name (acc. to UN): *nitrates, inorganic, in water solution, N.O.S.*

15. Regulatory information

Labelling according to EC Directives.

Symbol: *Xi; I*

R-phrases: *36; I*

S-phrases: *not applicable;*

16. Other information

Reason for alteration: general update.
